Good morning, Robert.

I wanted to check in on when you anticipate having revisions for the CFAC layout ready. We look forward to working on these and the fact sheet. If we anticipate this work going past June 21, 2017, we'll need to check-in with Sisay about the possibility of having the period of performance extended.

I also wanted to let you know that I'll be out on leave June 2-9 but that Emily will be available to work on the layout and fact sheet as needed. Please reach out to Emily or Sarah (both cc'd here) for project needs during that time.

Thanks and I hope all is well!
Blair

Hi Robert,

I wanted to circle back to see if you anticipate having revisions for the draft soon? We look forward to wrapping up the layout and putting a fact sheet together for you.

Best,
Blair

Hi Robert,

We weren't required to sign a release, but were asked to use them only for "reporting purposes" in good faith for the CIP. We spoke with Marcie Irwin (marcie@flatheadbeacon.com) who put us in touch with the photographer, Greg Lindstrom (greg@flatheadbeacon.com).

I hope this helps! Thanks!

Hi Blair,

Thanks for your response. For the photos, I figured as much. Yes, please send me the contact information to the Flathead Beacon. It's worth a shot to get additional permission to use those images for our webpage. I am hoping to use the same photos to keep some branding consistency. It won't be the first time I've panhandled for a public release form. BTW, can you send me a copy of the release form you have for using the photos for the CIP. I should probably have that on file.

I will follow up with you soon. Thanks!

Hi Robert,

Thank you for the updated information on your timeline for CIP revisions and fact sheet creation. We look forward to seeing feedback from the community and scheduling a check-in call to discuss.

The pictures you listed are from the Flathead Beacon and we were not granted permission to use or share them outside of the CIP. We spoke with several people at the Beacon for permission to use the photos and I can pass along that contact information if it would be helpful.

Thanks again,
Blair

Hi Emily and Blair,

I hope all is well. I wanted to send you a quick note about the draft CIP and public comments. In short, there is not a lot. Mike and I did present the CIP last week during public meetings and I'd like to give another week or so for comments and then I'll compile and share with you to update and finalize this draft of the CIP. Timeline - early May.

Also, I would like to use some of the pictures in the CIP for our webpage. There are a few stock pictures from pixabay in the sharepoint you shared, but not the ones I am looking for. In the CIP, please send (or add to the sharepoint):

- the cover photo (landscape with CFAC facility)
- photo of the CFAC facility on page 2 (for Section 3).

- the Aluminum Drive sign post photo (3rd page) – Mike, I think you said that you took this picture?
- Construction photo (second to last page)
- Any other photo that may look nice on the web and is available to use (not copyrighted or permission granted)

After I submit the revisions for the CIP in May, Let's plan to have another teleconference to discuss finalizing the CIP and developing the fact sheet. Based on community input, I think a fact sheet covering the contaminants of concern may prove useful. But let's discuss.

I will follow up with you soon. Thanks!
